

## **ReceiptSense Privacy Policy**

*Last Updated: November 10, 2025*

Your privacy is critically important to us. This policy explains what information we collect, how we use it, and how we aim to keep it secure.

### **1. Information We Collect**

Because ReceiptSense processes sensitive financial documents, we are committed to transparency regarding the two types of data collected:

#### **A. Uploaded Content Data (The Receipt/Invoice)**

When you upload an image (receipt or invoice) to the Service, we temporarily process the following:

1. **The Image File:** The raw image data (JPEG or PNG).
2. **Extracted Text:** The raw text output generated by the OCR engine (raw\_ocr\_text).
3. **Structured Data:** The organized financial fields (merchant\_name, total\_amount, line\_items, etc.).

#### **B. Usage Data (Server/Log Data)**

We may collect standard information that your browser sends whenever you visit our Service, such as your computer's Internet Protocol (IP) address, browser type, browser version, and the time spent on pages. This is used solely for service monitoring and debugging.

### **2. How We Use Information**

The information collected is used strictly for the purpose of providing the core functionality of the Service:

- To run the **OCR extraction process** on your image.
- To **display the structured data** (the Summary Card and Line Item Table) back to you.
- To **debug and improve** the performance and accuracy of the OCR model (using anonymized, non-financial snippets if applicable).

### **3. Data Storage and Retention**

**Crucial Note for Expense Documents:** We understand the sensitivity of financial documents. For the purposes of this application, uploaded images and their resulting structured data are **not persistently stored** on our servers beyond the time necessary to complete the extraction and display the result to you in the current session.

- **Temporary Storage:** Your uploaded file is processed in memory or on temporary storage only for the duration of the API call (typically milliseconds).
- **No Long-Term Link:** There is no user account or database linking the uploaded document to an individual identity beyond the necessary session-based logging for maintenance.

#### **4. Sharing Your Information**

We **do not sell, trade, or otherwise transfer** Your Content (uploaded images or extracted data) to outside parties.

#### **5. Security**

We implement commercially acceptable means of protecting Your Content, but remember that no method of transmission over the Internet or method of electronic storage is 100% secure. While we strive to use best practices (like server-side encryption for temporary files), we cannot guarantee absolute security.

#### **6. Changes to This Privacy Policy**

We may update our Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on this page.

#### **7. Contact Us**

If you have any questions or concerns about this Privacy Policy, please contact us.
